DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention.

The species are as follows:

- A. Species of Fig. 1
- B. Species of Fig. 6
- C. Species of Fig. 20
- D. Species of Fig. 24
- E. Species of Fig. 25
- F. Species of Fig. 26
- G. Species of Fig. 27
- H. Species of Fig. 28
- I. Species of Fig. 29
- J. Species of Fig. 32

The species are independent or distinct because there is nothing on the record to show them to be obvious variants. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there is no generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species MPEP § 809.02(a).
